Nationality : India

That's great to hear! Staying updated with the latest technologies is crucial in the fast-paced world of web development. If you ever need any assistance or have any questions about new technologies or trends, feel free to ask!

💼 Work Experience

May 2024 - Till Date

Frontend Developer

AXXXXB　　　　　　　　　　　　　　　　　　　　　**Bangalore, Karnataka**

Frontend developers are responsible for designing, implementing, and maintaining the user interface of a website or web application. Their duties and responsibilities include:

1. Collaborating with designers and backend developers to create a cohesive user experience.
2. Writing clean, maintainable code using HTML, CSS, and JavaScript.
3. Implementing responsive design principles to ensure the website or web application is accessible on various devices and screen sizes.
4. Testing and debugging code to ensure a smooth user experience.
5. Optimizing website performance by minimizing load times and improving code efficiency.
6. Staying up-to-date with the latest web development trends and best practices.
7. Communicating with stakeholders to gather requirements and feedback on the frontend design.
